About the Florence Nightingale Journal of Nursing

Florence Nightingale Journal of Nursing is a peer-reviewed, open access, online-only journal published by İstanbul University-Cerrahpaşa.

Florence Nightingale Journal of Nursing is a continuously published journal in English. The journal has moved to continuous publication by volume from Volume 33. Rather than publishing content into three online issues per year, all articles are published into a single annual (January-December) volume which will fill throughout the year as each new article is published.

Continuous publication model allows articles to be immediately released online rather than waiting for other articles in the issue to be completed. This model enhances the visibility and accessibility of the latest developments in the field.

Abstracting and Indexing

Florence Nightingale Journal of Nursing is covered in the following abstracting and indexing databases;

- PubMed Central
- Web of Science-Emerging Sources Citation Index
- Scopus
- DOAJ
- TUBITAK ULAKBIM TR Index
- Gale
- China National Knowledge Infrastructure (CNKI)
- EBSCO
- Cabells

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

The aim of the Florence Nightingale Journal of Nursing is to publish original research papers that possess significant scientific and clinical value in the fields of nursing research, practice, education, and management. The journal also welcomes reviews, rare case reports, and letters to the editors.

The target audience of the journal encompasses nurses, academicians, clinical researchers, medical and health professionals, students, nursing professionals, as well as relevant professional and academic bodies and institutions.
